

HEALING IN THE USA

would like to introduce our Healing Trust members to our healing work in the USA. Karen Coratelli-Smith, David C. Karg and Nancy O'Donohue are your Tutors and have been hosting Healer Development classes, community healing circles, and healing support groups for many years in the USA. Our students and healing circle guests come from all over the USA and from Canada! We are very grateful to The Healing Trust for their support of our work here, and we look forward to many more years of service!

Your tutors are located in Florida and New Mexico and will travel to host classes and support groups throughout the USA. Our classes and healing circles are virtual. This means we will travel to areas in the USA where there is significant interest in Healer Development classes, and our students and guests attend classes, practice sessions, and healing circles in person and online. In July we launched our first Part 3 class live and on Zoom and will do Parts 1 & 2 in October! A student on Zoom commented on the evaluation form that she never really believed in Distance Healing and is now an experienced distance healer and receiver!

In these changing times we are considering expanding our venue for learning, teaching multiple 2-hour, 10-week classes to accommodate work schedules of today's students. We may also take the classes into night school environments and, we are already teaching successfully on Zoom! Our bilingual Maria Elena Roubieck is helping us to develop our classes to reach our Spanish population here and in Mexico. We have just launched another program, **the Rosary for World and Planetary Healing and Peace** in English and Spanish on Zoom, reaching other healing modality teachers. We welcome opportunities for expansion that we have with today's internet access!

To date we have served over 3,000 guests in our Community Healing Circles in South more in Michigan and soon in New Mexico. And, since March we have held the Florida healing circles by phone, and are now hosting them on Zoom, reaching our 'snow bird' healers and guests in Canada and throughout the USA!
