

NFSH – The Healing Trust Training *in the USA*

Here you will find information about our classes and the **'Opportunity Path'** for students in the USA (document attached). There are meditations and various recordings of interviews as well. You can also request a private or distance healing session, and prayers for friends and family. If you **'Friend' Karen on Facebook**, she will invite you to our **private NFSH THT Facebook page**. On this page all THT members can request prayers and distance healing for themselves, friends, and family. We already have a couple of the UK Healers participating with us in prayer and distance healing! And, if you are looking to try an exciting marketing tool, take a look at our **Energy Infusion Gatherings** concept! Member Healers or Student Healers with the oversight of a Member Healer or Tutor work with a Host to design a special event, Energy Infusion Gathering!

(This photo was taken at a Chiropractor's office)

I'd like to recognize our new Healer Members; Valerie Johnston and Kathleen D'Orsi in Florida, and Richard Kurzenberger in Texas and South Florida.

We have enjoyed taking the journey with them and we are most grateful for their commitment to The Healing Trust.

From all of us in the USA, to all of our fellow Healing Trust members throughout the world, we offer our love and support!

Just a note about **USA Tutor Nancy O'Donohue!** Nancy is a gifted writer and author. Her pen name is **Molly Larkin** and you can follow her **Ancient Wisdom for Balanced Living blog** at www.MollyLarkin.com. We use 2 of her books in our **Healer Development** classes; **'The Wind is My Mother, The Life And Teachings Of A Native American Shaman, Bear Heart'** and **'The Fountain Of Youth Is Just A Breath Away' – Breathing Exercises for Relaxation, Health and Vitality**. Each student receives this book after we teach **'Breathing'** in Parts 1 & 2.
