

Don Fedor: *Awaken to Love*

Don Fedor is Professor Emeritus, Georgia Tech, Atlanta, GA, USA.

In years past, he explored many different healing methods. However, he admits to becoming disillusioned, and had stepped away from doing healing work.

In 2017, he participated in a NFSH-The Healing Trust healing circle. After experiencing the circle twice, he began his training and later gratefully became one of the circle's healers.

He says that doing the training and participating as a healer has been life changing. He also credits his growth as a healer for opening other avenues, one of which is a recently published book entitled, *Awaken to Unconditional Love: New Wisdom from 20 Spiritual Masters* (O'Leary Publishing)

The book offers ways to bring forth unconditional love into our life and to connect more fully to our true self.
